DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 25 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 25 provides for “stereochemically isomeric forms thereof.” But none of the species has a chiral atom. Hence, these are impossible. Applicants must either remove this provision or add a compound with a chiral center. The traverse is unpersuasive.

Applicants point to the fact that some species can exist in E or Z forms (cis and trans).

Agreed. But these are geometrically isomeric (geometric isomers); the molecules actually have a different geometry (shape). The claim language is “stereochemically” isomeric.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action.

Art Unit: 1624

In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
